GRO10X HOLDINGS · ENGINEERING DIVISION

AI Food-Tech Marketplace MVP

Turnkey Technical Specification, Architecture & Commercial Proposal · Denmark DK

Reference: GRO-DK-FOODTECH
Target Market: Denmark / EU
Contract Type: Fixed Project MVP
Delivery SLA: 6 Weeks

Executive Commitment: We engineer a **launch-ready, secure, and production-grade MVP** for your Denmark food-tech startup—not merely a static prototype. Built on a modular, multi-tenant architecture designed to scale seamlessly from day-one web bookings into future native iOS/Android applications, with strict **GDPR compliance and automated Stripe marketplace payouts**.

01 · Core MVP Scope & Module Breakdown

1. Modern UI/UX & Booking Flow

High-conversion, mobile-first design tailored for European consumers with frictionless appointment and food service scheduling.

Next.js 14 App Router | Tailwind CSS | Mobile Responsive

2. Multi-Role User Management

Secure RBAC with 3 dedicated portals: Customer Profile, Service Provider / Kitchen Partner Portal, and Super Admin Command Center.

Customer Portal | Provider Dashboard | Super Admin RBAC

3. Marketplace & Scheduling Engine

Catalog management, live calendar availability, multi-criteria filtering, order booking lifecycle, and real-time status tracking.

Availability Calendar | Live Booking Pipeline | Search & Filter

4. AI-Enabled Intelligence Engine

Production OpenAI GPT-4o integration for smart food/service recommendations, menu parsing, dietary matching, and automated summaries.

OpenAI GPT-4o | Smart Matching | Schema Enforced

5. Stripe Marketplace Split Payments

End-to-end automated payment flows: platform fee deductions, instant provider split payouts (Stripe Connect), and financial ledger logs.

Stripe Connect | Commission Split | DKK / EUR Support

6. Admin Control, Security & GDPR

Full governance over users, bookings, and platform revenue. Built with EU GDPR privacy controls, cookie management, and SEO foundation.

GDPR Consent | Audit Logs | Row-Level Security

02 · Battle-Tested Technology Architecture

FRONTEND SPA

BACKEND & APIS

DATABASE & RLS

PAYMENTS & AI

03 · 5-Week Milestone Delivery Roadmap

WEEK 01

Foundation

› DB schema & RLS
› Multi-role auth
› Brand UI system

WEEK 02

Marketplace

› Service catalog
› Search & filters
› Calendar booking

WEEK 03

Payments

› Stripe Connect
› Commission split
› Vendor payout

WEEK 04

AI & Admin

› OpenAI matching
› Admin dashboard
› GDPR consent

WEEK 05

Launch Ready

› Cross-device QA
› Cloud deployment
› Full IP handover

04 · Commercial Terms & Milestone Disbursements

€4,200

FIXED PROJECT PRICE

Zero hidden charges · Milestone escrow disbursements

Kickoff & Architecture Approval:	25% (€1,050)
Multi-Portal & Booking Engine Demo:	25% (€1,050)
Stripe Payments & AI Operational:	25% (€1,050)
Final QA, Live Deploy & Source Handover:	25% (€1,050)

Complete Enterprise Protection

✓ **100% IP & Source Code Ownership:** Delivered cleanly with zero vendor lock-in.
✓ **30 Days Warranty:** Dedicated post-launch bug fixing and monitoring included.
✓ **Mobile-Ready Architecture:** Clean APIs structured for future native iOS & Android apps.
✓ **Strict NDA Adherence:** Your proprietary concepts and business model remain confidential.
