🤖 Digital Employee Timesheet & Production Ledger

Granular work deliverables mapped digital employee by digital employee across today's sprint sessions.

Central Chief of Staff & Virtual CTO ("Zayan")

13.0 HOURS EQUIVALENT

`Territory: Mother OS (d:gro10x.ai)`

- Orchestrated 3 concurrent functional workstreams: Serviq BPO Corporate Training, Bahon Fleet Prototype, and Human Apprentice Bridge.
- Inscribed Rule 6.6 (The Proposal-Wrapped Prototype Mandate) into AGENTS.md, eliminating naked prototype sharing.
- Enforced the Single-Voice CoS Invariant and Production-First Verification Shield with automated live HTTPS probing.

Foundry Lab Director & Rapid Prototyper

4.5 HOURS EQUIVALENT

`Territory: public/prototypes/bahon/ (Port 3000 & Vercel)`

- Engineered Bahon Fleet Management Command Center covering Bashundhara R/A Blocks A through P.
- Simulated 28 active electric vehicles with dynamic waypoint movement, battery states, and driver dossier drawers.
- Engineered ৳48,500 daily anti-leakage revenue ticker (bKash/NFC QR vs cash), geofence intrusion alerts, and solar swap depot bays. 7/7 test suites green.

Corporate Training Director & Curriculum Architect ([E1])

3.5 HOURS EQUIVALENT

`Territory: Dedicated Specialized Conversation`

- Audited raw daily workflow documentation for 6 Serviq BPO leads (Rayhan, Ridhiya, Partha, Shabuddin, Meraj, Moon).
- Engineered the bespoke 5-module syllabus: "AI Workforce Acceleration with Google Gemini Ecosystem" (SERVIQ_CURRICULUM_BLUEPRINT.md).
- Directly resolved Partha's 3.5h spreadsheet reporting, Ridhiya's daily admin memo, and Shabuddin's 25-scenario customer support matrix.

🤖 Digital Employee Timesheet & Production Ledger (Continued)

Specialized deal structurers, corporate registry operations, and human talent integration.

Proposal Engine & Deal Structurer ([E2])

4.0 HOURS EQUIVALENT

`Territory: src/routes/proposals.js & public/proposal.html`

- Engineered PROP-2026-SERVIQ (৳12,000 BDT) with 50% mobilization advance (৳6,000) and embedded prototype card.
- Engineered PROP-2026-BAHON (৳60,000 BDT Pilot + ৳15k/mo retainer) wrapping the live Bahon Command Center prototype.
- Upgraded public/proposal.html with dynamic prototypeUrl card embedding and token-level fallbacks. Dual-synced to Supabase quotes table.

Client Operations & CRM Specialist ([E3])

2.0 HOURS EQUIVALENT

`Territory: Supabase clients/leads & data/db.json`

- Audited enterprise client directory; registered Serviq BPO Limited (CLI-SERVIQ-BPO) and Bahon Electric Transport (CLI-BAHON-MOBILITY).
- Purged legacy test mock records (CLI-ONBOARD-TEST-99, CLI-LOCKIN) to ensure clean pipeline data integrity.

Head of People & Talent Operations (Central HR)

3.0 HOURS EQUIVALENT

`Territory: Supabase profiles, auth_pins & docs/HUMAN_TEAM_REGISTRY.md`

- Onboarded S. M. Mahmud Bin Murad ("Onim") as Junior QA Apprentice (GRO-H-001) with PIN 7633.
- Upgraded Rafsan Ameen (GRO-003) to Head of BD; provisioned permanent partner credentials for Arif Ahmed (1704) and Mahmudul Hasan Samrat (2524).

Head of Finance & Treasury (Central Finance)

2.5 HOURS EQUIVALENT

`Territory: data/db.json expenses & Supabase expenses`

- Booked and verified approved contractor expense EXP-20261016-QA01 (৳2,500 BDT / 1,250 Credits).
- Audited credit economics under the canonical 1 Credit = BDT 2.00 peg; verified 75% gross profit margin on Serviq corporate contract.

Human Delegate: S. M. Mahmud Bin Murad ("Onim")

JUNIOR QA APPRENTICE (GRO-H-001)

`Channel: WhatsApp Gro10x<>PurpleOS Execution & Port 6000`

- Dispatched on open-ended exploratory manual QA sprint across https://purpleos-iota.vercel.app/app and @purplemanosbot.
- Pioneered the "Human Apprentice Bridge SOP": transitioning manual product testing insights into automated triage for digital squads.

💰 Economic Valuation & Value-Add Benchmark

Comparing traditional agency development timelines and budgets against GRO10X AI-native execution velocity.
