client : Toffee
Date: 18th October , 2026
Event: ToffeeCon

Item	Description	Qty	Cost
AI Creator Dubbing Studio	Multilingual AI voice cloning & instant video dubbing booth. Real-time creator voice enrollment, auto-transcription, bilingual lip-synced audio generation (Bangla / English), and instant QR code video download. Includes live prototype staging: toffeecon-2026.onrender.com/dubbing	500–800 uses	**120,000**
Mainstage Interactive LED & Live Voting HUD	Real-time audience engagement engine for 600+ seated attendees. WebSocket-powered live polling HUD, interactive creator award voting, dynamic leaderboard rendering, and broadcast-grade stage graphics. Prototype staging: toffeecon-2026.onrender.com/stage	600+ guests	**90,000**
Optical Ingress & Gate Accreditation	Sub-second NFC/QR optical credential verification and digital guest accreditation. Real-time attendee check-in telemetry, VIP arrival notifications, duplicate entry prevention, and badge synchronization. Prototype staging: toffeecon-2026.onrender.com/ingress	500–800 passes	**60,000**
Dedicated High-Availability Cloud & Token Pool	Pre-provisioned neural compute cluster, dedicated GPU inference token pool for real-time AI dubbing pipelines, edge caching, and failover redundancy ensuring zero latency during peak creator sessions.	1 cluster	**50,000**
Event Master Software Direction	Lead systems architect and technical director on-site for end-to-end rehearsal, live stage coordination, audio-visual mesh integration, and continuous runtime monitoring throughout the event.	1 lead	**30,000**
		Total (BDT)	**3,50,000**

Note: This quotation covers the complete AI & Interactive Technology Operating System for ToffeeCon 2026, including software architecture, AI neural inference, live prototype staging (toffeecon-2026.onrender.com), optical ingress verification, and on-site technical supervision. Hardware equipment, LED wall panels, venue rent, acoustic physical booth carpentry, and catering are excluded and handled by event production partners.
