client : Toffee
Date: 18th October , 2026
Event: ToffeeCon

Item	Description	Qty	Cost
AI Creator Dubbing Studio & Acoustic Booth	Complete physical + digital creator dubbing experience. High-fidelity acoustic isolation booth, professional directional microphone rig, automated voice cloning & multilingual video synthesis (Bangla / English), live preview monitor, and instant branded video delivery via dynamic QR pass. Prototype staging: toffeecon-2026.onrender.com/dubbing	500–800 uses	**165,000**
Mainstage Interactive LED Engine & Crowd Voting	Broadcast-grade mainstage visual orchestration. Ultra-low latency WebSocket voting HUD for 600+ guests, live interactive polling, real-time award nomination countdowns, dynamic 4K visualizer feeds, and automated stage lighting cue integration. Prototype staging: toffeecon-2026.onrender.com/stage	600+ guests	**135,000**
Optical Ingress Terminal & Accreditation Desk	Dual-lane high-speed optical scanning terminals with dedicated barcode/QR readers, instant digital credential printing, VIP priority routing alerts, offline fallback database sync, and real-time gate occupancy dashboard. Prototype staging: toffeecon-2026.onrender.com/ingress	500–800 passes	**85,000**
High-Availability Cloud Cluster & Neural Compute	Dedicated high-throughput GPU inference cluster with pre-allocated Gemini / ElevenLabs neural token quota, multi-region API fallback, SSL encryption, and high-concurrency websocket server infrastructure.	1 cluster	**65,000**
Air-Gapped Edge Server & Internet-Drop Redundancy	On-site localized edge server deployment providing 100% offline-resilient local LAN failover for gate ingress, voting, and media processing in the event of venue cellular or ISP network degradation.	1 rig	**55,000**
On-Site Technical Directorate & Operations	Full-day dedicated technical crew (Lead Systems Architect, DevOps Engineer, Stage AV Operator, Ingress Floor Specialist) for hardware testing, dry-run rehearsals, and uninterrupted live operational governance.	1 crew	**45,000**
		Total (BDT)	**5,50,000**

Note: This quotation covers the complete AI & Interactive Technology Operating System for ToffeeCon 2026, including acoustic dubbing booth technology, on-site air-gapped edge server redundancy, broadcast mainstage engine, live prototype staging (toffeecon-2026.onrender.com), and full technical directorate. Mainstage LED physical panels, general venue rental, security personnel, and guest catering are excluded and handled by venue and logistics partners.
